

25 evals for 2018 Spring Assembly with total attendees 45

1. **Enjoy?** 23 **yes**; KDBM great & well presented, I can see already how I can work it into my personal Alanon program to "let it begin with me" & see new openings to communicate with my own untreated Alanon family members, yay a new tool!; suggestions from fall assembly contributed to an organized presentation; assembly keeps getting better & better, this was the best yet, plenty of info before hand, great content; staying on target was difficult; went quick, liked changes to the agenda; I like the fact that we have discussions that lead to changes as to how AWSC/Assembly can be made responsive to changes in our lives & the world-technology, challenge of Alateen; experience, strength & hope of members was the most meaningful to me
2. **Helpful?** Enthusiasm, organization, love reports, skit was nice openerx4; discussion x2; Alateen quiz great x11; job fair excellent x4; KDBM x14; Carol great job 8a new GR training; Learning more about how Alanon works the area level; evaluations rock! Making speakers come up to microphone
3. **Least helpful?** 13 **blank**; DR reports; cold in the room; some topics (donated CALx3) generated more discussion that anticipated, frustrating that pluses & minuses couldn't have been identified ahead of time but live & learn; even if something wasn't helpful to me directly, the process was important & I'm sure it was valuable to someone else; job fair-should have stayed up front & said everything, papers passed out & wrote down at seat; probably 501, I get it & needed to be communicated; remind people that lunch discussions to be more experience, strength & hope oriented. I joined new people & didn't get much out of it; time pressure, split heirarchy between longtime mmbtrs & newer GRs; discussing computers for officers, GRs don't need to be a part of that, do they?; crosstalk distracting
4. **Suggestions?** 11 **blank** Remote passable mike x3 (buy one?), 10 min yoga stretch to energize group, I got sleepy; GRs spread the word & car pool, bring people!; more structured & organized; more consistent way to make decisions; keep skits, interactive learning & speaker meeting; invite Alateens, email packet (expectations) to attendees, what to do about meals, way to identify those who are on their own who might want to join others, cash check, registration, buy literature, contributions if wish to; Friday night Alanon meeting; where are posters of 12 steps, traditions, concepts, vision, mission?; besides knowing about coordinators position, one might need info about GRs so they of informed voters; deadline for new business, not added at last minute; DR reports in writing only, some go on & on x2; offer AM walk/meeting; remember to break things down to basics because there are a lot of new people
5. **Problems?** 17 **no** Control temperature; facility was greatx3! Cold x3; room was nice size & great snacks; very nice, comfortable accomodations; love it; facility & catering was excellent x2; great location to see my daughter in college
6. **Future topics?** Mentoring in service & service sponsorship, ideas for district meetings, sponsorship-what to do when having hard time finding a temp or permanent one; Alateen participation; easy ways to establishe district budget; take job fair info back to groups; maybe have KDBM yearly 30 min?; great to hear about district outreach; GR count needs to be quicker/easier; short introductions; name professional skills for available resources
7. **Thank you** x6 Social media use? mentor those in new in positions? Highlight new events? Job descriptions include list of events to attend? Alanon meetings at retirement or care centers?

15 evals for Montana Spring 2018 AWSC with total attendees 30

1. **Enjoy AWSC? 15 yes;** seeing familiar faces & meeting new ones
2. **Most helpful? Old & new business;** lot of good applicable suggestions & information; it was my 1st so it explained a lot & brought things was told to life; knowledge sharing. Great info for new GRs. Enjoyed the exercise on Alateen, good information; Alateen questions & sharing with another Alanon member, how Alateen could have changed high school years, thought force process, good job Elaine!; Seeing people I care about, KDBM; thought I lost phone, hotel went thro lobby & garbage looking for me! So thankful!; KDBM-excellent & very helpful, literature-needed to have discussion & it was good; I liked how short & to the point it was, very clear to follow; not giving reports that will be given in assembly x2; new business; microphone & having people come up to the front & use it x2; laughter, DR/coordinator talking session, "we are flexible", Belgrade is very welcoming!
3. **Least helpful? 4 blank...**Too much cross talk. It seemed somewhat disjointed; not enough time allotted for discussion; assembly getting stuck on minute items. Connie did a good job of pressing thro; long discussion about what to do with Glendive literature; very confused actually I had the discussion about assembly duties all confused. I was understanding that GRs wanted to set the dates of assembly. I had it all wrong, so confused; there was some confusion over a few things-concern about literature at assemblies, issue about making decision regarding hotel commitment differently then in the past-an unanticipated consequence of leaving Lewistown; rush to approve minutes-maybe review highlights or topics; long discussion about selection of dates for the 2019 & 2020 spring assemblies; cramped area with furniture very close together x2, this should be alleviated next Belgrade AWSC mtg; better in a conference room but Connie said next year it will be
4. **Suggestions? 7 blank;** Conference room would make things better. Since agenda is already set, do we really need to have a full AWSC meeting? How about a workshop? X2; continue to streamline reports. This improved from fall assembly; continue to acknowledge newcomers & get historic info to them in a manner they can understand; do not take time with decisions that could be made based on a their (person's) service positions & then tell us what decision they acted on; have it 1-2 months before assembly & not at assembly; brief overview of AWSC for any visitors or first timers; can Alateens be invited to attend? Or a portion of it? Could they be informed about what Alateens in other areas are doing?; maybe some of this could be handled with conference calls or meeting at an earlier date before the assembly
5. **Problems with facility? 10 No...**Room is too noisy; easy to find, good location;when registerd for room was told I had a suite (3 possible beds) when I got here, it actually was 2 queen beds, no suite; cold air blowing on us at all times; need cordless mike; having the meeting in the breakfast area on Fri evening was difficult, taking notes without a table to write on
6. **Suggestions? 11 blank;** how to's, beginner mtg-institutions, Alateen workshops;concept workshop, skits also great;what are other areas doing that might be of interest to us? Inviting districts that don't come to come & include info on scholarships; open discussion is valuable at end; make AWSC eval $\frac{1}{2}$ page to avoid mix up & keep Assembly full page eval
Comments: enjoyed it immensely, good meeting! Good turn out!, good job!! Great job! Thanks for your service! Thanks to all who organized this meeting; limit discussion time & cross talking
